THE FUTURE LOOKS GREENER

WHAT IS COLOURGUARD PLUS?

Exclusive to the Lawn Solutions Australian turf growers network, ColourGuard PLUS is a 100% natural and non-toxic grass colourant which now has the additional benefit of a liquid fertiliser. This combination of a robust blend of vital micro nutrients with an naturally derived pigment will improve both the appearance and health of your lawn at any time of year. ColourGuard PLUS is easy to apply, plus one application gives your lawn up to 3 months of natural green colour. Say goodbye to frost affected dormant lawns in winter and unirrigated, dry and crunchy lawns in summer.

AVAILABLE IN

- 100ml concentrate
- 2L Ready-to-use Hose-on
- 2.5L Concentrate

PROTECT YOUR LAWN

Think of ColourGuard PLUS like a sunscreen for your lawn: it screens out the harmful UV rays, but still allows filtered light to hit the leaf blade. ColourGuard PLUS protects your lawn during even the hottest summer months and the coolest winter days.

Want to know how to have the best looking lawn in the street regardless of what mother nature throws at it? A single application of ColorGuard PLUS will create instant beauty and instant envy! But shhh! Don't tell your neighbours!

THE COLOURGUARD PLUS DIFFERENCE

ColourGuard PLUS is NOT a lawn paint. ColourGuard PLUS is a natural pigment blended with a liquid fertiliser that is naturally absorbed by the grass leaf blade. This means you get to keep the beautiful natural green colour for up to 3 months, whilst giving your lawn a dose of vital micro nutrients.

SELLING YOUR PROPERTY?

A beautiful lawn can increase the value of your property by up to 18%.

LOVE A GREEN LAWN?

Be the envy of your street, with a lush green lawn all year round.

HOSTING AN EVENT?

Whether you're hosting a Sunday BBQ or a wedding, ColourGuard PLUS will make sure your lawn is looking its best and will be dressed to impress.

WHAT YOU NEED TO KNOW

After you have applied ColourGuard PLUS, be sure to allow at least 2 hours of direct sunlight for the pigment to absorb. If your lawn is in a shaded area you may need slightly longer. ColourGuard PLUS is a permanent colourant, so it will only disappear as your lawn grows. Once ColourGuard PLUS has dried, it will not run or fade after rain. It's locked into the leaf blade until it grows out!

DIRECTIONS

ColourGuard PLUS is very easy to apply. Always be sure to check out the 'How-to' video for ColourGuard PLUS on our website before application for further tips and advice.

APPLY IN 5 EASY STEPS

SHAKE BOTTLE WELL!

1. Attach your hose to the 2 Litre Ready To Use bottle.
2. Keep bottle upright during application. Spray evenly across your lawn, working methodically from one side to another.
3. When spraying near hard surfaces like paths and driveways, stand on the surface and spray the ColourGuard PLUS away from the surface onto your lawn. If you do accidentally spray on surfaces, hose off immediately with water.
4. Leave your lawn to dry for at least 2 hours afterwards (if in full sunlight), or longer if it is shady. Easy!
5. Water your lawn 2 to 3 days after application to wash off any excess.

PRECAUTIONS

- Do not apply to wet or dew affected grass
- Avoid footpaths, driveways and other hard surfaces
- Allow up to 24 hours before desired result
- Allow adequate time for lawn to dry before walking on or applying water
- It's advisable to water well 2 to 3 days after application to wash off any excess.

CLEANING

If you accidentally get ColorGuard PLUS on your paver or concrete during application to your lawn, don't sweat it. Use a general purpose window or floor cleaner if you have not had a chance to hose straight off before it dried while applying.

SAFETY

Keep out of reach of children. Avoid contact with eyes and skin. If contact occurs, flush with water and consult a doctor. May be harmful if swallowed. If accidental ingestion occurs consult a doctor.
